

# Scherer Precision Grind 12" Roller Mill

- **Dual-rake trash take-off system**
- **Designed for varying feed types**
- **Consistent quality to 300 micron**
- **Single-to-quad stackable system**

Designed for low maintenance and ease of use, the Precision Grind isolates its serviceable bearings to keep dust out. Additionally, we've given this roller the ability to monitor its own temperature, grease itself as needed, and so much more.

The Scherer Precision Mill is adaptable to many product types, with precision grain control and the ability to quickly change from cracking grain to 300 micron feed. Best of all, we've made it stackable so it can grow with your business, from a single to a quad mill.
